SUMMARY

Passionate software engineer with 4+ years of experience involved in the development of successfully delivered B2B applications implementing the standard software development procedure and cutting-edge technologies.

SKILLS SUMMARY

- **Languages**: C, C#, JavaScript, TypeScript
- **Frontend Framework**: Angular, Angular Material, Bootstrap
- **Backend Framework**: .NET Core
- **Database**: SQL(MSSQL), NoSQL(MongoDB)
- **Collaboration Tools**: Git, JIRA, Hubstaff

WORK EXPERIENCE

- **WebCreek**   The Woodlands, USA
  Full-stack(Angular, .NET Core) Software Engineer(Remote Job)   *July 2022 - Present*
  - Build products for US-based industrial equipment dealerships company where we provide digital solutions for their entire operations.
  - Developed products with ASP.NET Zero framework and MSSQL database.
  - Work with a diverse work culture where our members are from 15+ different countries.

- **SELISE Digital Platforms**   Zurich, Switzerland
  Full-stack(Angular, .NET Core) Software Engineer(Dhaka office)   *Oct 2017 - Aug 2022*
  - Developed digital products for some renowned European insurance companies where our products were greatly appreciated and were frequently used by our clients.
  - Automated some complex calculations system like pooling simulation which used to take huge time before our solution.
  - Worked as a team lead for some particular features and designed databases(MongoDB) for large systems.
  - Worked on micro-service architecture and generic-based application development environment.

EDUCATION

- **Shahjalal University of Science and Technology, Sylhet**   Jan 2013 - Oct 2017
  B.Sc.(Engineering) in Computer Science and Engineering; GPA: 3.25 out of 4.00

- **Govt. City College, Chittagong**   Oct 2010 - Aug 2012
  Higher Secondary School Certificate(Science Group); Grade: 5.00 out of 5.00

- **Saint Placid's High School, Chittagong**   Jan 2006 - Mar 2010
  Secondary School Certificate(Science Group); Grade: 5.00 out of 5.00

UNDERGRADUATE THESIS

- **Sachetan "A crowdsource based safety application"**: making a. system which will show a safe path from current location to destination on google map and shows the statistical and analytical reports of dangerous accidents such as mugging, robbery, theft, sexual harassment take place for a specific area.(Published in springer 2019 conference India)

Programming And Problem Solving Activities

- 367 UVA Problems solved (username: mithun_SUST).
- Regular codeforce contestant during 2014-2015 (username: Mithun_SUST)
- 70+ problems solved at LightOj (username: Mithun Das)
- 100+ problems solved at Hackerrank (username: mithun_sust)
- Regular programming contestant at University during 2013-2015

Extra Co-Curricular Activities

- Data Science Enthusiast (Kaggle certification links are attached below):
    - Python Course Certification (Link)
    - Introductory Machine Learning (Link)
    - Intermediate Machine Learning (Link)
- Story writer in Medium (Link)
